

OMG ACADEMY COURSE GUIDE

Program Overview & Price List 2025

SCHOOL OF FILM & TELEVISION

RECOGNITION OF PRIOR LEARNING

GOT SKILLS, BUT NO PAPERS? YOUR HUSTLE, CERTIFIED!

In Film & TV, talent takes you far but without formal qualifications, doors stay closed.

- No promotions.
- Lower pay.
- Blocked from top jobs & government gigs.

HERE'S THE GAME-CHANGER:

Recognition of Prior Learning (RPL) by SAQA lets you turn your on-set experience into **a formal qualification.**

- Show your portfolio.
- Get assessed.
- Earn credits, study access, or a qualification, without repeating what you already know.

RPL = Your experience, officially recognised. Take your career from hustle to higher ground.

- Network support
- Basic application support

DURATION: 12 months

COST: R45 000

SHORT IT SKILLS PROGRAMS

ITF+ (BASIC IT CONCEPTS)

ITF+ is a pre-career certification designed to introduce individuals to basic IT concepts and skills. It is geared towards those with little or no prior IT experience and helps build a foundation for further IT learning and career paths.

SOME OF THE MODULES YOU WILL BE LEARNING:

- IT knowledge and skills
- IT concepts and terminology
- Infrastructure
- Applications and software
- Software development
- Database fundamentals
- Security

DURATION: 5 days

COST: R3 499

MICROSOFT AZURE FUNDAMENTALS

It entails foundational knowledge of cloud computing concepts, including different service models and Azure management and governance features and tools.

SOME OF THE MODULES YOU WILL BE LEARNING:

- Describing cloud concepts
- Describing Azure architecture and services
- Describing Azure management and governance

DURATION: 1-2 days

COST: R48 000

MICROSOFT AZURE AI FUNDAMENTALS (AI-900)

It is a foundational level course that outlines the concepts of artificial intelligence and how they relate to Microsoft Azure services. It is designed for individuals with technical or non-technical backgrounds who want to learn about AI and how it is implemented on Azure.

SOME OF THE MODULES YOU WILL BE LEARNING:

- Machine Learning
- Computer Vision
- Natural Language Processing
- Speech Recognition

DURATION: 5 days

COST: R8 950

MICROSOFT SECURITY ENGINEER

This course is for someone who seeks to be a professional who focuses on protecting systems, data, and networks, particularly within Microsoft's ecosystem, using their expertise in security technologies and strategies. Their responsibilities will be implementing and managing security solutions, responding to security incidents, and ensuring compliance with relevant regulations.

SOME OF THE MODULES YOU WILL BE LEARNING:

- **Protecting systems and data:** Design and implement security measures
- Network security
- Vulnerability management
- Security assessment and audit

DURATION: 5 days

COST: R8 950

AZURE AI ENGINEER ASSOCIATE

This course entails implementing, managing, and monitoring security for resources in cloud and hybrid environments. The role of Security Engineer Associate involves securing Azure workloads, managing identity and access, protecting data and applications, and responding to security incidents.

SOME OF THE MODULES YOU WILL BE LEARNING:

- **Securing Azure workloads:** security of Azure infrastructure.
- **Managing identity and access:** implementing and managing access control.
- **Protecting data and applications:** ensuring data security through encryption, data masking, database monitoring.
- **Implementing security controls:** setting up perimeter security, network security, host security.

**SOME OF THE MODULES YOU WILL BE LEARNING:**

- **Responding to security incidents:** utilising tools like Microsoft defender for cloud, Microsoft sentinel, Microsoft 365 defender.
- **Ensuring Regulatory Compliance:** Implementing controls to meet regulatory requirements for Azure infrastructure.

DURATION: 5 days**COST:** R24 999**MICROSOFT POWER BI-BUSINESS INTELLIGENCE**

This course entails visualising and analysing data to gain actionable insights. It allows users to connect to various data sources, transform the data, and create interactive reports, dashboards, and visualisations. Power BI is designed for both business users and data professionals, offering tools for self-service data preparation, AI-powered insights, and secure data sharing.

SOME OF THE MODULES YOU WILL BE LEARNING:

- **Power BI Desktop:** learning how to build reports and visualisations, offering data modelling and query capabilities.
- **Power BI Service:** learning how to use a cloud-based service for publishing, sharing and collaborating on reports and dashboard.
- **Power BI Mobile Apps:** learning how to access apps and interacting with reports and dashboards on mobile devices.
- **Data visualisation:** learning how to transform data into interactive charts, graphs, maps and other visuals to understand data patterns and trends.

DURATION: 5 days**COST:** R6 950**TECH +**

CompTia Tech+ provides you with the foundational knowledge and hands-on skills needed to navigate today's digital world. It focuses on practical, real world skills that help you understand core tech concepts, troubleshoot basic issues, and build a strong foundation for future learning and growth in the tech industry.

SOME OF THE MODULES YOU WILL BE LEARNING:

- IT concepts and terminology.
- **Infrastructure:** Hardware, software, networking, basics of managing IT systems.
- **Applications and Software:** operating systems, software applications.
- **Software Development:** Basic coding and software creation.
- **Database Fundamentals:** Data management and Database interaction.
- **Security:** Cyber security basics, how to protect digital information.

DURATION: 5 days**COST:** R3 499

CLOUD +

Cloud computing entails a global network of remote servers designed to store and process data for other devices and computers. This architecture allows people to save their files and applications in the cloud.

SOME OF THE MODULES YOU WILL BE LEARNING:

- Cloud computing fundamentals
- Cloud architecture
- Deployment, security and operations

DURATION: 5 days

COST: R3 450

SECURITY +

Security + is a stepping stone for IT professionals seeking careers in cybersecurity, demonstrating core knowledge in areas like network security, risk management and incident report.

WHAT YOU WILL LEARN IN THIS COURSE:

- Attacks, threats, and vulnerabilities
- Architecture and design
- Implementation
- Operation and incident response
- Governance, risk and compliance

DURATION: 5 days

COST: R8 950

A+ N+

A+ and N+ are starting points for IT professionals. Focusing on core hardware and software technologies, Network + focuses on networking concepts, protocols and technologies.

WHAT YOU WILL LEARN IN THIS COURSE:

- Install and configure hardware and software
- Troubleshoot PC, Mobile and OS issues
- Basic security practice, support multiple operating systems
- Design and configure networks, understand IP addressing and protocols

DURATION: 5 days

COST: R8 950

DATA +

Data analytics involves collecting, transforming and organising data to extract meaningful insights that can drive business strategy, improve processes, and enhance overall performance. “The process of examining raw data to find trends, draw conclusions, and make informed decisions.”

SOME OF THE MODULES YOU WILL BE LEARNING IN THIS COURSE:

- Power BI
- SQL
- Excel

DURATION: 5 days

COST: R8 950

CYSA +

Cyber security is the practice of protecting computer systems, networks, and data from digital attacks, damage. Or unauthorised access. It involves various strategies, technologies, and processes to ensure the confidentiality, integrity, and availability of information and systems.

SOME OF THE MODULES YOU WILL BE LEARNING IN THIS COURSE:

- Networks security, threat detection
- Security tools
- Cyber security frameworks, incident responses

DURATION: 5 days

COST: R6 950

LINUX +

LINUX + focuses on hands-on skills in configuring, managing, and troubleshooting Linux systems, including security, scripting, and cloud- related technologies. It's a vendor neutral certification, meaning it applies to various Linux distribution and environments.

SOME OF THE MODULES YOU WILL BE LEARNING IN THIS COURSE:

- Systems management
- Security
- Scripting, containers and automation
- Troubleshooting

DURATION: 5 days

COST: R6 950

PENTEST

A pentest, short for penetration test is a simulated cyberattack on a computer system or network, conducted by cybersecurity professionals with the goal of identifying vulnerabilities that could be exploited by malicious actors.

SOME OF THE MODULES YOU WILL BE LEARNING IN THIS COURSE:

- Mobile devices
- Virtualisation and cloud computing
- Networkng
- Hardware and Network troubleshooting
- Hardware

DURATION: 5 days

COST: R6 950

END USER COMPUTING – NQF LEVEL 3

End user computing course equips individuals with the skills to confidently and effectively use computer systems and applications in their daily work. This course covers foundational IT concepts, common software applications like Microsoft word 365, Excel 365, Power-point 365, Publisher 365, Outlook 365.

SOME OF THE MODULES YOU WILL BE LEARNING IN THIS COURSE:

- Introduction to computers
- Presentations
- Operating systems
- Word processing
- Database management
- Spreadsheets
- Internet and email
- Statistics

DURATION: 6 months

COST: R8 450

OCCUPATIONAL HEALTH & SAFETY PRACTITIONER – NQF LEVEL 5

Become the safety champion every workplace needs. This course equips you to spot hazards, assess risks, and keep teams safe while ensuring compliance with regulations. Think of yourself as the guardian of a healthier, accident-free workspace.

DURATION: 12 months

COST: R39 900

RENEWABLE ENERGY WORKSHOP ASSISTANT – NQF LEVEL 4

Be part of the green revolution! This course trains you to support technicians in installing, maintaining, and assembling renewable energy systems while mastering the use of tools, instruments, and safety practices. You'll be hands-on in powering a cleaner, more sustainable future.

DURATION: 12 months

COST: R58 500

NEW VENTURE CREATION – NQF LEVEL 2

Got a business dream? This course gives you the tools to start, manage, and grow your own small business. From analysing markets to handling finances and resources, you'll learn how to turn your big idea into a thriving venture.

DURATION: 5 days

COST: R12 300
